

The Music Culture Of REVELATION

With our events reputable organizers can expand and enrich their offers of their location – to all their guests their program appears even more attractive and varied that way.

Performing as a musical duo under the title REVELATION we are versatile, flexible and reliable in the context of creating live events – to all age groups from 3 years we offer successful live events which can be coordinated with the personal requests and ideas of the organizer.

Whether birthdays or parties, whether opening days or fairs, whether foreign stage or REVELATION open-air show stage, whether single events, part-day or full-day programs, whether small or large cultural week ...

... all of our offers are as well suitable for the extension of an existing program as for a solo event, too.

Experience has shown us that success always requires good cooperation – we look forward to a first personal meeting and remain
Yours sincerely.
